Business Insights

Key Findings:-

*Total sales reached **$900M**, with an operating profit of **$332M**, indicating strong overall business performance.

* The **West region** generated the highest sales compared to other regions, making it the most important market for the company.

* **In-store sales account** for the largest share of total sales, showing that physical retail remains the dominant sales channel.

* **Men's Street Footwear** is the top-performing product category, contributing significantly to total revenue.

* **Among retailers, West Gear leads** in both sales and profitability, making it the most valuable retail partner.

Business Recommendations:-

* Increase marketing and promotional efforts in Midwest and lower-performing regions to balance regional performance.

* Strengthen the online sales channel to improve digital sales growth and reach more customers.
